- Docker and GitHub
- HTML/CSS/JS

- Teachability
- Problem-Solving
- Communication Skills

About Me

Student with a deep interest in the full cycle of software development, with both front-end and back-end skills. Passionate about creating innovative web applications and constantly striving to improve my technical skills.

Experience

Friends Corner 2023 - 2024
Full Stack Developer

Personally designed and implemented the front-end and back-end of the "Friends Corner" app, utilizing Python, FastAPI, and PostgreSQL. Successfully integrated authentication, WebSocket chat features, and containerized the application with Docker before deploying it.

Patrol 2019
Full Stack Developer

I developed a website in Flask Python to connect the Patrol with the server. Learned the basics of writing a backend and frontend. With this project I won the international competition Kvantoriada 2019.

Education

Basic degree in information and communication technology, software developer

Luksia, Länsi-Uudenmaan koulutuskuntayhtymä

2023-2026

Achievements

Winning the international competition
Kvantoriada 2019
